

Features

- Made from Stainless Steel.
- Everlasting ferrite magnets with rubber cap, thus no chance of scratches on holding surface.
- Holds itself and components kept
- Assists mechanics to work in high places keeping both their hands free.

MAGNETIC TF ART NO. 31118

Applications

- Ideal in garage for holding hand tools for easy accessibility.
- Convenient for keeping nuts, washers, bolts and hardware during roof fitting and fabrication.

All dimensions are in mm

| Art No. | L | W | Н | Weight (Kgs) |
|----------|-----|-----|----|-----------------|
| 31118.01 | 225 | 130 | 26 | 0.7 |

ART NO. 31119

Applications

- Ideal for machine tools for holding components, jigs and fixtures.
- Convenient to hold jobs during inspection.
- By attaching one side on the angle plate and job on the other, marking is made easy.
- Keeps both hands free.

All dimensions are in mm.

| ART NO. | L | W | Н | WEIGHT (Kgs) |
|----------|-----|----|----|-----------------|
| 31119.01 | 100 | 70 | 20 | 0.57 |

- Magnets on both sides.
- Body made of aluminium.
- Holds itself and the job.
- Multipurpose.
- Everlasting ferrite magnet, thus no reduction in magnetic power.

ART NO. 31120

Features

- Magnets on both sides in single long series.
- Strontium Ferrite Magnets sandwiched between steel strips.
- Can hold on to any steel surface.
- With holes, can be fixed or hanged.
- Holds workshop tools conveniently.
- Can be custom designed.

All dimensions are in mm.

| Art No. | L | W | Н |
|----------|-----|----|----|
| 31120.01 | 200 | 50 | 20 |
| 31120.02 | 300 | 50 | 20 |
| 31120.03 | 500 | 50 | 20 |

Applications

- Ideal for shop floors for keeping tools like spanners, hammers, chisels, screw drivers etc.
- Due to continuous upgradation in design there could be changes in specifications.
- · Other sizes on request.
