# STEEL SQUARES $90^{\circ}$ 

Features

- These squares are made of stainless steel material.
- They are ground and lapped for high accuracy.

Applications

- For measuring right angle during machining.

ART NO. 34101
All dimensions are in mm .

Features

- These squares are made of hardened tool steel.
- They have a knife edge and are ground and lapped for high accuracy.
- These are chrome plated for better longevity.

## Applications

- For measuring right angle during machining.

## ACUTE ANGLE SQUARE $45^{\circ}$ AND $60^{\circ}$ All dimensions are in mm .

## Features

- These squares are made of hardened tool steel.
- They have a knife edge and are ground and lapped for high accuracy.
- These are chrome plated for better longevity.

## Applications

- For measuring right angle during machining
- Due to continuous upgradation in design there could be changes in specifications.
- Other sizes on request.
