

EPCUBE

ART 13107

Epcube 70mm Square pole rectangular Magnetic chuck

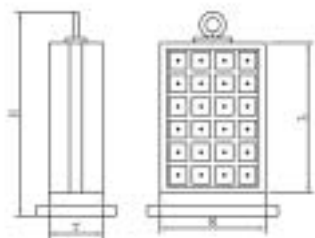

Features

- Variation of Epsquare chuck unit.
- Unobstructed movement of the cutter during machining, as all five faces of the job can be machined at the same setting.
- Single or multiple work pieces get clamped ergonomically and easily by the operator outside the machining area.

• Power connection from detachable bayonet connector, position can be changed.

Applications

- Achievement of total flexibility to clamp work pieces of different shapes and sizes, even larger than those of the clamping area.
- AUTOMATIC SHIMMING: Sliding pole extensions allow clamping and uniform support of work pieces even with bent surfaces achieving high accuracies of planarity.
- Easily integrated with pallet clamping and FMS system.

All dimensions are in mm.

Art No.	W	L	T	H	No. Of Poles	Controller
13107.01	475	425	180	600	16	93101.01
13107.02		595	200	780	24	
13107.03	625	665	200	860	42	

- Due to continuous upgradation in design there could be changes in specifications.
- Other sizes on request.
